
Anastasia Anna Pateli

+30 6937485191 — annapat2005@gmail.com — Athens, Attica, Greece

Born: 21/09/2005 — **Nationality:** Greek

[LinkedIn Profile](#) — [Personal Website](#)

Education

- **Undergraduate Student in School of Architecture** — National Technical University of Athens — (9.83) — 2024-present
- **Undergraduate Student in School of Mathematics** — National and Kapodistrian University of Athens — 2023-2024
- **Excellence Scholarship Graduate** — Athens College — (19.6) — 2023

Past Research Programs

- **Final Project "Hyperbolic Paraboloid" Class of "Geometrical Illustrations" First Semester, School of Architecture, NTUA** — Nov-Dec 2024
A research team work project on a solid with double-ruled surfaces made by industrial flat surfaces. (I would like to develop this project in the future.)
- **International Masterclass "Hands on Particle Physics"** — Apr 2022
Studied particle therapy (radiation) for cancer treatment and conducted a team-work project analyzing the effectiveness of different particles (protons, photons, carbons) using MatRad to suggest a combination of a throw angle and a particles that cure cancer cells without damaging the healthy ones and awarded 2nd place.
- **Personal Project: "Genetic engineering and DNA editing to combat genetic diseases" MYP (Year 5), Psychico College** — Aug-Dec 2020
A 6-month research project on how CRISPR-Cas9 works and its potential applications for the treatment of genetic diseases creating a final product with 3D Design and Printing.

Soft Skills

- Creativity
- Communication
- Adaptability

Hobbies

- Rhythmic gymnastics (12 years, 2 team medals)
- Photography/Videography (Camera operator for a short film at Arsakeio School of Psychico, 2019)

Languages

- Greek: Native speaker
- English: Lower degree — 2019
- French: Very good
